

## **FFLA Answerman report for 2015**

As in all the previous years, the answerman volume has increased, with the majority of the questions being about lookout employment jobs, Qualifications needed for lookout jobs, where to find a lookout for sale, directions to particular lookouts and questions on how to preserve a lookout.

As some of you know, any question that I had difficulty answering was redirected to the chapter director in the area of the person asking the question or who I felt would know the answer. To all of you who were able to help me and those who had asked the question put forth, my thanks to you all.

I'm looking forward to another great year of helping people get the answers they desire from the FFLA Answerman.

Henry Isenberg - FFLA Answerman
