

Vermont Chapter report for 2021

Another Quiet Report from Vermont, although Our State has become a “Destination State” especially during the past year. Visitorship has noticeably increased largely due to the Pandemic and increased interest in outdoor pursuits.

Stratton Mountain Caretakers report 7,658 visitors over the season, many climbed the steps to enjoy the amazing view from the tower.

Our Northern Report from Kevin Williamson states that the Monadnock Mountain Trail continues to remain Closed.

Our Membership stands at 15 at present Time.
